SECTION 2 -- GENERAL ADMINISTRATION

2.1. Title

2.1.1. This Bylaw shall be referred to as “Bylaw 561, 2007”.

2.2. Purpose

2.2.1. This Bylaw is to provide a clear and efficient system of land use regulation for the orderly, economic, beneficial, equitable and environmentally sensitive use, development, and re-development of the District of Lake Country having regard for the provisions of the District of Lake Country’s Official Community Plan.

2.3. Zoning Map

2.3.1. The District of Lake Country is hereby divided into the following zones:

COLUMN 1	COLUMN 2

DC5	Direct Control Five
DC6	Direct Control Six
DC7	Direct Control Seven

- 2.3.2. The boundaries of those zones are shown on the “Zoning Map” which is attached as Schedule “A” to this Bylaw.
- 2.3.3. In this Bylaw, reference to zones as listed in Column 1 of Section 2.3.1 shall be deemed to mean and be the same as the zone listed in Column 2 of Section 2.3.1 and the words and numbers in the said columns shall be deemed to be interchangeable where the context of the Bylaw otherwise requires.
- 2.3.4. An “lp” notation shown on Schedule “A” as part of the identified zone classification indicates that a Liquor Primary, major establishment in the form of facilities primarily intended for the provision and consumption of alcoholic beverages which have a seating capacity of more than 100 persons is permitted on the properties so designated, subject to meeting the conditions of use of the zone. An “lp” zoning classification on a property shall be established by rezoning the subject property to the “lp” version of the parent zone.

2.4. Uses and Regulations

- 2.4.1. Except for legal non-conforming uses or development approved by a development variance permit or a Board of Variance order, or another agreement or permit as authorized by provincial statute, the use, buildings, structures, in each zone or area shall be in accordance with the uses listed in the zone and all the appropriate regulations and requirements of this Bylaw.
- 2.4.2. No land, building, or structure, within the District of Lake Country shall be developed, used, constructed, erected, modified, converted, enlarged, re-constructed, altered, placed, or maintained except in conformity with the provisions of this Bylaw.
- 2.4.3. Notwithstanding section 2.4.2 the following uses, buildings and structures are permitted:
 - (a) the use of a building or part thereof as a temporary polling station, election official’s headquarters, candidate’s campaign office, and any other official temporary use in connection with a federal, provincial, or municipal election, referendum or census;

- (b) the use of a building, or part thereof, as a constituency office for a Federal Member of Parliament or a Provincial Member of the Legislative Assembly when located in a Commercial, Industrial or Institutional zone. Any signage for the constituency office will be required to meet the provisions of the District of Lake Country Signage Regulation Bylaw currently in effect;
- (c) a temporary structure which is incidental to the erection, maintenance, alteration, or sales of a building, structure, lot or utility for which a building, development permit or preliminary layout approval has been issued provided that they are removed within 30 days of project completion or one year following the issuance of a building permit;
- (d) landscaping, where the existing grade and surface drainage pattern is not materially altered and will not create off-site impacts, except where required by Section 8;
- (e) railways except private sidings, pipelines, and irrigation ditches, conduits, flumes, and pumphouses;
- (f) minor impact utility services underground or within statutory rights-of-way and utility poles and anchors; and
- (g) construction, maintenance and repair of private walkways, pathways and driveways.

2.5. Compliance with Other Legislation

- 2.5.1. In addition to this Bylaw, a person is responsible for ascertaining and complying with the requirements of all other applicable municipal bylaws, or Provincial or Federal statutes and regulations.
- 2.5.2. The provisions of the development permit system included within the Official Community Plan apply in addition to the regulations in this Bylaw.

2.6. Applications in Process

- 2.6.1. A completed application for a building permit which is received prior to the effective date of this Bylaw shall be processed in accordance with District of Lake Country Zoning Bylaw No. 176, unless the applicant provides a written request that their application be considered under this Bylaw. Such applications shall be approved or rejected within 12 months of this Bylaw coming into effect and, if rejected, any future development must comply with this Bylaw.

2.7. General Interpretation

- 2.7.1. Any enactments referred to herein are a reference to an enactment of British Columbia and regulations thereto, as amended, revised, consolidated or replaced from time to time, and any Bylaw referred to herein is a reference to an enactment of the Council of the District of Lake Country, as amended, revised, consolidated or replace from time to time.
- 2.7.2. The headings given to sections, paragraphs, and sub-sections in this Bylaw are for convenience of reference only. They do not form part of this Bylaw and will not be used in the interpretation of this Bylaw.
- 2.7.3. The Schedules attached to this Bylaw form part of this Bylaw.

2.8. Repeal

- 2.8.1. The District of Lake Country Zoning Bylaw 176, and all amendments thereto, is hereby repealed.
- 2.8.2. The District of Lake Country Town Centre Zoning and Signage Regulation Bylaw 98-194, and all amendments thereto, is hereby repealed.

SECTION 3 -- INTERPRETATION

3.1. Rules of Interpretation

- 3.1.1. Words used in the present tense include the other tenses and derivative forms; words used in the singular include the plural and vice versa; and the word "person" includes a corporation, firm, partnerships, trusts, and other similar entities as well as an individual. Words have the same meaning whether they are capitalized or not.
- 3.1.2. The words "shall" and "is" require mandatory compliance except where a variance has been granted pursuant to the Local Government Act.
- 3.1.3. The phrase "used for" includes "arranged for", "designed for", "maintained for", or "occupied for".
- 3.1.4. Words, phrases, and terms neither defined in this section nor in the Local Government Act or Community Charter shall be given their usual and customary meaning.

3.2. Zone Boundaries

- 3.2.1. The zone boundaries on the Zoning Map shall be interpreted as follows:
 - (a) Where a zone boundary follows a street, lane, railway, pipeline, power line, utility right-of-way, or easement, it follows the centreline, unless otherwise clearly indicated on the Zoning Map;
 - (b) Where a zone boundary is shown as approximately following the District boundary, it follows the District boundary;
 - (c) Where a zone boundary is shown as approximately following the edge, shoreline, or high water mark of a river, lake, or other water body, it follows the natural boundary. In the event of change, it moves with the natural boundary;
 - (d) Where a zone boundary is shown as approximately following a property line, it follows the property line;
 - (e) Where a zone boundary is shown as approximately following a topographic contour line or a top-of-bank line, it follows that line;
 - (f) Where a zone boundary is shown as being generally parallel to or as an extension of any of the features listed above, it shall be so; and
 - (g) In circumstances not covered above, the zone boundary shall be determined by the scale of the Zoning Map.
- 3.2.2. When any street is closed, the roadway lands have the same zoning as the abutting land. When abutting lands are governed by different zones, the centre of roadway is the zone boundary unless the zone boundary is shown clearly following the edge of the roadway. If the roadway is consolidated with an adjoining parcel, the parcel's zoning designation applies to affected portions of the roadway.

3.3. General Definitions

- 3.3.1. The definitions of uses group individual land uses into a specified number of classes, with common functional or physical impact characteristics. They define the range of uses which are principal and secondary, with or without conditions, within various zones of

this Bylaw.

- 3.3.2. The following guidelines shall be applied in interpreting the use class definitions:
- (a) Typical uses listed in the definitions as examples are not intended to be exclusive or restrictive; and
 - (b) Where a specific use does not conform to the wording of any use class definition or generally conforms to the wording of two or more definitions, the use conforms to and is included in that use class which is most appropriate in character and purpose.
- 3.3.3. The following words, terms, and phrases, wherever they occur in this Bylaw, shall have the meaning assigned to them as follows:

A

ABUT OR ABUTTING means immediately contiguous to, or physically touching, and when used with respect to lots or sites means two that share a common property line.

Typical uses include but are not limited to sanitary land fill sites, sewage treatment plants, water treatment plants, major pumphouses, water towers or tanks, sewage lagoons, snow dumping sites, sludge disposal beds, garbage transfer and compacting stations, power terminal and distributing stations, power generating stations, cooling plants, equipment and material storage yards for vehicles, utilities and services, District heating plants, incinerators, and waste recycling plants.

UTILITY SERVICES, MINOR IMPACT means development for utility infrastructure purposes which is likely to have only minor impact on the environment or adjacent land uses by virtue of its appearance, noise, size, traffic generation or operational characteristics. Typical uses in this class include but are not limited to telephone exchanges, wire centres, switching centres, surface reservoirs or storm water lakes including adjacent landscaping and walkways, minor pumphouses, communication towers, gate stations for natural gas distribution, and transit terminals.

V

VEHICLE means any motor vehicle as defined in the Motor Vehicle Act.

VEHICLE AND EQUIPMENT SERVICES, INDUSTRIAL means development used for the sale, rental, service, or repair of heavy vehicles, machinery or mechanical equipment typically used in building, roadway, pipeline, oil field and mining construction, manufacturing, assembling and processing operations and agricultural production. This does not include truck and manufactured home sales rentals.

VEHICULAR ORIENTED USE means a use which predominantly caters to automotive vehicular traffic. Vehicular-oriented uses include but are not limited to gas bars, service stations, drive-ins, drive-through vehicle services, and similar developments providing drive-in services in which patrons generally remain within their vehicles.

VQA WINE RETAIL STORE means a retail store licensed by the Province of British Columbia Liquor Control and Licensing Branch to sell only Vintners Quality Assurance (VQA) approved wines.

W

WALKWAY means a street intended to carry pedestrian and non-motorized traffic only, except that a walkway may be designed to afford emergency vehicle use.

WAREHOUSE SALES means development used for the wholesale or retail sale of a limited range of bulky goods from within an enclosed building where the size and nature of the principal goods being sold typically require large floor areas for direct display to the purchaser or consumer. Typical uses include but are not limited to developments where principal goods being sold are such bulky items as furniture, carpet, major appliances, and building materials. This use does not include developments used for the retail sale of food or a broad range of goods for personal or household use.

WATERCOURSE means any natural depression with visible banks, that contains water at some time, and includes any lake, river, stream, creek, spring, ravine, swamp, gulch, coulee, wetland, or surface source of water, whether containing fish or not, including intermittent streams, and drainage works that contain fish.

WATER FEATURE INSTALLATIONS means a structure, such as a water fountain, that serves as a prominent visual attraction.

WINERIES AND CIDERIES means a facility for the production of wine or cider and includes the sale of these products produced on the site and the limited consumption of the products at the site; includes a farm winery, an estate winery, or an estate cidery licenced under the Liquor Control and Licencing Act.

WRECKING YARD means any land or building used for the collection, demolition, dismantlement, storage, salvage, recycling or sale of waste materials including scrap metal, vehicles, machinery, and other discarded materials.

Y

YARD means an area created by setback measured 0.5 m above grade.

YARD, FRONT means the area between side lot lines extending from the front lot line to the nearest wall or supporting member of a building or structure.

YARD, REAR means the area between the side lot lines extending from the rear lot line to the nearest wall or supporting member of a building or structure.

YARD REQUIRED means that portion of a lot situated between a lot line and the line established by the associated minimum site yard line.

YARD, SIDE means that part of the lot which extends from a front yard to the rear yard between the side lot line and the nearest wall or supporting member of a building or structure.

Z

ZONE means the areas into which the District is divided in accordance with the maps attached as Schedule "A" of this Bylaw and for which specific regulations are outlined herein for each area.

SECTION 4 -- SEVERABILITY

4.1. Severability

- 4.1.1. If any section, paragraph or phrase of this Bylaw is for any reason held to be invalid by a decision of a Court of competent jurisdiction, such decision will not affect the validity of the remaining portions of this Bylaw.

SECTION 5 -- ENFORCEMENT

5.1. General

- 5.1.1. The Director of Development Services, Building Inspectors and Bylaw Enforcement Officers are authorized to enforce the provisions of this Bylaw.

5.2. Right of Entry

- 5.2.1. The Director of Development Services, Building Inspectors and Bylaw Enforcement Officers shall have the right of entry and may enter onto any land or into any building at all reasonable hours in order to inspect the same and to ascertain whether the provisions of this Bylaw have been carried out.
- 5.2.2. No person shall interfere with or obstruct the entry of a Bylaw Enforcement Officer or any authorized District representative onto any land or into any building to which entry is made or attempted pursuant to the provisions of this Bylaw.

5.3. Prohibitions

- 5.3.1. No person shall contravene, cause, suffer, or permit a contravention of this Bylaw.
- 5.3.2. No person shall commence or undertake a use which is not permitted by this Bylaw.
- 5.3.3. No person shall construct, make an addition to or alter a building or structure, which is not permitted by this Bylaw.
- 5.3.4. No person shall contravene a condition of a permit issued under this Bylaw.
- 5.3.5. No person shall modify any description, specifications, or plans that were the basis for the issuance of any permit by Council or delegated body or a Building Inspector.
- 5.3.6. No person shall authorize or do any development that is at variance with the description, specifications or plans that were the basis for the issuance of a building permit.
- 5.3.7. No owner, lessee, tenant, or person shall:
- (a) place or permit a commercial vehicle in excess of 5,000 kg. licensed gross vehicle weight on a lot in a residential zone;
 - (b) place or permit a recreational vehicle in excess of 5,500 kg. licensed gross vehicle weight on a lot in a residential zone;
 - (c) permit a motor vehicle in a state of disrepair or derelict for more than 30 days on a lot in a residential zone;
 - (d) permit more than two recreational vehicles outdoors on a lot in a residential zone;
 - (e) permit a fuel storage tank exceeding 205 l on a lot in a residential zone;
 - (f) fail to deflect lighting away from adjacent property as required by Section 7.9; or
 - (g) permit a use in a zone where the use is not listed as a principal or secondary use in the zone.

5.4. Penalties

- 5.4.1. Every person who violates a provision of this Bylaw commits an offence and is liable on summary conviction to a penalty not exceeding Ten Thousand Dollars (\$10,000.00) and the costs of prosecution.
- 5.4.2. Each day a violation of the provisions of this Bylaw exists or is permitted to exist shall constitute a separate offence.

SECTION 6 -- AMENDMENTS

6.1. Application

- 6.1.1. Any person applying to have any provision of this bylaw amended shall apply in writing by submitting an application in the form and manner prescribed in the District of Lake Country Development Application Procedures Bylaw currently in effect, and as amended from time to time.

SECTION 7 -- GENERAL DEVELOPMENT REGULATIONS

7.1. Daylighting Standards

- 7.1.1. Daylighting standards shall apply to every building in all applicable zones as outlined in Diagram 7.1: Application of Daylighting Standards
- 7.1.2. In the case of a building more than two storeys or 10.0 m in height, no part of such building above the second storey or above 10.0 m shall project above lines extending toward the building at right angles from:
- all points along the central line of an adjacent street and inclined at an angle of 65° to the horizontal;
 - all points along the centre line of the rear lane or the rear boundary line of the lot where there is no lane and inclined at an angle of 65° to the horizontal;
 - all points along the side lot line and inclined at an angle of 65° to the horizontal.

7.2. Swimming Pools

- 7.2.1. Swimming pools shall not be located in a required front yard.
- 7.2.2. Above ground swimming pools shall meet the siting requirements of accessory buildings.
- 7.2.3. At grade swimming pools shall be located at a minimum of 1.0 m from side and rear property lines and 1.5 m from any street, except for a required front yard.
- 7.2.4. Fencing around swimming pools shall be in accordance with the District of Lake Country Building Bylaw, as amended from time to time.

7.3. Yards

- 7.3.1. A part of a lot reserved as a yard shall not be deemed to form part of any abutting lot for the purpose of computing the area available for building purposes or any other purpose.
- 7.3.2. Where a lot which is not a corner lot has frontage on more than one street, or fronts both a street and a lane which is used for primary access, any building, structure or accessory building shall be located on such lot to maintain a front yard on each street frontage so as to be consistent with the predominant front yard setback in the block.
- 7.3.3. In the case of a corner lot the front yard shall be the narrower of the two frontages.

7.4. Projections Into Yards

- 7.4.1. Chimneys, cornices, leaders, pilasters, belt courses, sills, bay windows, a cantilevered section of a building or ornamental features may project into a required yard, provided such projections do not exceed 0.6 m. Structural projections, excluding purely architectural or aesthetic features, shall comprise not more than 20% of an exterior wall in which it is located. For buildings or structures that are more than one storey, the area of the structural projection shall be calculated per storey.
- 7.4.2. Unenclosed steps, eaves, awnings, decks, canopies, balconies, or porches may project into a required yard provided such projections do not exceed 0.6 m.
- 7.4.3. Entrance canopies or awnings in RM5 zones for weather protection or building ornamentation may project no more than 3.0 m into a front yard or a flanking side yard or no closer than 1.5 m to a side lot line.
- 7.4.4. All canopies and awnings shall be designed to direct run-off and snow away from the sidewalk below.
- 7.4.5. Utilities, storage tanks, underground parking and similar structures constructed entirely beneath the surface of the ground may encroach into required yards provided such underground encroachments do not result in a grade inconsistent with abutting properties and the encroachments are covered by sufficient soil depth or surface treatment to foster landscaping, provided that storage tanks containing flammable materials shall be subject to the British Columbia Fire Code.

7.5. Undersized Lots

- 7.5.1. Where a lot is reduced in size as a result of a taking for public use by the District, Provincial or Federal Government, an Improvement or Irrigation District, the Board of School Trustees, or a Public Utility by dedication, expropriation, or purchase, the lot and buildings and structures thereon are deemed to conform with the provisions of this Bylaw and the lot shall be considered to exist as it did prior to the taking for the purpose of further development upon the lot under its existing zoning regulations, providing such taking:
- (a) does not reduce a minimum front, side or rear yard below 1.5 m unless this Bylaw does not require such yard;
 - (b) the utility installation does not endanger the continuing use of the property as permitted by this Bylaw; and
 - (c) does not result in the parcel being rendered unsuitable for any of the uses permitted in the zone in which the lot is located.
- 7.5.2. A principal or secondary use is permitted on a lot less than the minimum lot size in that zone provided that the development otherwise complies with all the regulations of this Bylaw.
- 7.5.3. Where a lot is created with Agricultural Land Commission approval for severance of a home-site or a lot to be used in lieu, and the lot is zoned A1 Agriculture 1, then the development regulations of the RU1 zone, as described in section 15.1.6, shall apply to the development of that lot.

7.6. Accessory Development

- 7.6.1. No person shall erect or permit to be erected a satellite dish, radio or television mast in a residential zone:
- (a) that is located in a required front or side yard or projects over any lot line; and
 - (b) is higher than the height permitted for any accessory structure in that zone unless the property owner or tenant holds a current Amateur Radio License issued by Industry Canada.
- 7.6.2. Accessory buildings or structures in non-residential zones
- (a) An accessory building or structure in any non-residential zone is subject to the development regulations for that zone.
 - (b) Notwithstanding Section 7.6.2 (a), an accessory building or structure on a lot in a non-residential zone which abuts a lot in a residential zone shall not be less than 1.5 m from the boundary of the lot in a residential zone.
- 7.6.3. Accessory buildings or structures in residential zones
- (a) Accessory buildings or structures are not permitted in a required front yard and shall be a minimum of 1 m from the principal residence.
 - (b) An accessory building or structure shall not be used as a dwelling unless it is a permitted accessory suite.
 - (c) Lot coverage of accessory buildings or structures shall not exceed 14% or a maximum area of 90 m² for accessory buildings in the Residential Urban zones.
 - (d) Accessory buildings and structures shall be located on an interior lot as follows:

- (i) an accessory building in an urban residential zone or a rural residential zone shall not be located closer than 18.0 m to the front lot line unless it complies with the side yard requirements for a principal building and is located at least two times the distance of the required front yard setback for that zone from the front lot line;
 - (ii) an accessory building in an urban residential zone or a rural residential zone shall be located no less than 1.0 m from the side lot line, except that where the accessory building does not exceed the fence height (2.0 m) and is less than 10.0 m² in area, it may be located within 0.0 m from the side lot line. Accessory buildings containing secondary suites shall conform to the side yard setback requirements for the principal building in the zone;
 - (iii) mechanical equipment shall be located to comply with the side yard setback for the principal building.
- (e) In addition to the provisions of Section 7.6.3(d), the distance between an accessory building and the side lot line abutting a flanking street, shall not be less than the side yard abutting a flanking street required for the principal building.
 - (f) An accessory building or structure on any through lot shall be sited as if a front yard is required on both lot lines abutting streets.

7.7. Height and Grade

- 7.7.1. In determining whether a development conforms to the maximum height permitted in any zone, structures such as chimney stacks, aeriels, antennae, water towers, wind machines, monuments, observation and transmission towers, farm silos, steeples, elevator housings, roof stairway entrances, ventilating equipment, skylights, or flagpoles for federal, provincial, or municipal flags shall not be considered for the purpose of determining the height.
- 7.7.2. Walkout basements oriented to the rear yard shall not be considered for the purpose of determining height for single dwelling housing, duplex housing, or semi-detached housing. Where access is required through, and is limited to, a lane the yard abutting the lane may be considered the front yard.
- 7.7.3. No building or structure shall be erected in any zone without first obtaining the approval of the Building Inspector as to the proposed building grade. The proposed building grade shall to the extent possible, retain the natural grade of the land, minimize the necessity to use retaining walls and ensure positive drainage away from abutting properties.
- 7.7.4. Where the width of the dormer or dormers exceeds 50% of the width of the roof on which they are located the height of the dormer will be measured as if it was the main roof.

7.8. Services

- 7.8.1. No building, structure, or lot in any zone shall be used for any purpose that requires street access or services unless:
 - (a) the owner has obtained proper authorization to have the required services installed and has installed such services in accordance with the District of Lake Country Subdivision and Development Servicing Bylaw currently in effect; and
 - (b) the lot has actual physical access from the street in accordance with the District of Lake Country Access Bylaw currently in effect.

7.9. Lighting

- 7.9.1. Any outdoor lighting for any development shall be located and arranged so that light rays are deflected downward to minimize impact on surrounding development and no direct rays of light are directed at any adjoining properties or interfere with the effectiveness of any traffic control device.
- 7.9.2. Site areas with public access shall be lit in keeping with the principles of crime prevention through environmental design and require site lighting as is necessary to encourage pedestrian safety and allow casual surveillance from adjacent buildings and streets of parking areas and walkways.

7.10. Housing Agreements

- 7.10.1. The Director of Development Services may recommend to Council that a Housing Agreement pursuant to the Local Government Act, as a condition of approval for special needs housing, contain contractual arrangements as to any, or all, of the following:
- (a) the use of the lot in relation to any existing or proposed building or structure including the preservation of buildings, structures and environmental setbacks;
 - (b) the occupancy, form of tenure, availability, administration, management and rent provisions, of the housing units;
 - (c) the timing of the development; and
 - (d) such other conditions as may be considered reasonable under the circumstances.
- 7.10.2. Increases in the maximum specified density, or reductions in parking or loading requirements are permitted in the RM2, RM4, RM5, C1 and C2 zones, provided:
- (a) the owner enters into a Housing Agreement satisfactory to the District of Lake Country; and
 - (b) such public benefit, determined by the District of Lake Country, may include affordable or special needs housing for sale or rental at below market rates to qualifying purchasers or tenants or, amenities or amenity improvements to public spaces or community facilities.
- 7.10.3. All agreements entered into pursuant to Section 7.10 shall run with the land as a priority charge against the title of the subject lands at the Land Title Office.

7.11. Setback from Provincial Highways

- 7.11.1. All buildings and structures on lots abutting Highway 97 shall not be closer than 15.0 m to the Highway, except where located in the Town Centre, where it may be no closer than 4.5 m.

7.12. Lake Development Sight Lines

- 7.12.1. All buildings and structures, greater than 1.2 m above natural grade, on lots along the foreshore of Okanagan Lake, Wood Lake and Kalamalka Lake shall be sited to not obstruct views of the lake from the established abutting development. New development shall be sited to permit the adjacent occupants a 120° panoramic view from the corner of the house, parallel with the adjacent property line, as shown in Diagram 7.2: Lake Development 120° Panoramic Sight Line.

Diagram 7.2: Lake Development 120° Panoramic Sight Line

7.13. Hillside Development Sight Lines

- 7.13.1. On lots having a natural slope equal to or in excess of 10%, no building or structure except those exempted from height limitations pursuant to section 7.7.1, shall exceed the height created by a horizontal plane established at a height that is 2.0 metres greater than the elevation of the midpoint of the front property line of the adjacent uphill property, This is as shown in Diagram 7.3: Hillside Development Horizontal Sight Line

Diagram 7.3: Hillside Development Horizontal Sight Line

7.14. Rooftop Screening

- 7.14.1. Rooftop, mechanical, and electrical equipment in zones other than agricultural zones shall be screened from view from a public roadway or adjacent property at grade.

7.15. Utility Cabinets

- 7.15.1. Minor utility cabinets for the provision of telephone, power, cable television or other utility services, when located outside a statutory right-of-way, shall comply with the following:
- (a) a cabinet less than 1.8 m in height with no horizontal dimension exceeding 1.0 m need not comply with any yard requirements in any zone;
 - (b) a cabinet less than 1.8 m in height with a horizontal dimension between 1.0 m and 2.0 m must be set back at least 1.0 m from a lot line; and
 - (c) a cabinet greater than 1.8 m in height or with a horizontal dimension exceeding 2.0 m shall comply with the setbacks for accessory structures in that zone.

7.16. Distance from Watercourse, Bodies of Water

- 7.16.1. Notwithstanding any other provisions of this Bylaw, no building or any part thereof shall be constructed, reconstructed, moved or extended nor shall any dwelling, mobile structure, or structure be located:
- (a) within 7.5 m of the natural boundary of a lake, swamp or pond, or within 15 m of the natural boundary of any other nearby watercourse;
 - (b) with the underside of the floor system of any area used for habitation, business, or storage of goods damageable by floodwaters, or in the case of a manufactured home or unit the ground level on which it is located: lower than elevation 343.66 m Geodetic Survey of Canada datum for locations adjacent to Okanagan Lake; nor lower than elevation 393.2 m Geodetic Survey of Canada datum for locations adjacent to Kalamalka and Wood Lakes; nor lower than 0.6 m above the two hundred year flood level where it has been determined; nor lower than 1.5 m above the natural boundary of any other nearby lake, swamp or pond.
- 7.16.2. Sub-section 7.16.1 (b) shall not apply to:
- (a) a renovation of an existing building or structure used as a residence that does not involve an addition thereto;
 - (b) that portion of a building or structure to be used as a carport or garage;
 - (c) farm buildings other than dwelling units and closed-sided livestock housing.
- 7.16.3. The required elevation may be achieved by structural elevation of the said habitable, business, or storage area or by adequately compacted landfill on which any building is to be constructed or manufactured home located, or by a combination of both structural elevation and landfill.
- 7.16.4. Where landfill is used to achieve the required elevations stated in Sub-section 7.16.1 (b), no portion of the landfill slope shall be closer than the distances in Sub-section 7.16.1 (a) from the natural boundary, and the face of the landfill slope shall be adequately protected against erosion from floodwaters.

7.17. Storage of Materials

- 7.17.1. Storage of materials shall not be permitted in any required front yard.

7.18. Density Bonusing

- 7.18.1. The density of development within a zone may be increased as set out within a specific

zone where the developer has provided an amenity in accordance with Table 7.1.

Table 7.1: Amenity Provisions for Density Bonusing	
Zone	Approved Amenity
RM5 C1 C9 C11 Applicable DC Zones	\$22.00/sq m for floor space created above the third floor of a building. Funds collected for this amenity are placed in a dedicated reserve account for the future purchase of a ladder equipped firetruck and other related firefighting equipment.

7.19. Community Gardens

7.19.1. Community gardens are permitted in all zones in the District of Lake Country.

SECTION 8 -- LANDSCAPING AND SCREENING

8.1. Required Landscaping

- 8.1.1. The minimum level of landscaping required in each zone along all front, rear and side yards shall be determined from the Minimum Landscape Buffer Treatment Levels Schedule (Table 8.1). The landscaping details shall be as established in the Minimum Landscape Buffer provisions of Section 8.6. Properties with an 'lp' part of the zoning designation shall comply with the landscaping requirements of the parent zone.
- 8.1.2. In cases where property is to be developed in phases, landscaping need only be provided on that portion of the property to be developed in each phase. Landscaping shall be required in subsequent phases on the remainder of the property at the time that these are developed.
- 8.1.3. Notwithstanding Section 8.1.2, where the property is to be developed in phases, those portions of the property that will be developed in later phases shall have a minimum level of landscaping to ensure that no erosion of surface materials occurs through either wind or water action. The landscaping may be provided by either retention of existing vegetation or placement of new material.

8.2. Landscaping Standards

- 8.2.1. All required landscape areas and installations shall meet or exceed the British Columbia Nursery Trades Association Standards and be regularly maintained.
- 8.2.2. Required landscape buffers in subsection 8.6 shall be continuous along the affected property boundaries, except that they may be interrupted only by walkways and driveways providing access to the property and running perpendicular to the property line.
- 8.2.3. All required landscaped areas will be graded to meet the following criteria or as approved by the Director of Development Services:
 - (a) Maximum 1:3 slope (33%) for lawn areas;
 - (b) Maximum 1:2 slope (50%) for shrub or ground cover area;
 - (c) Minimum 1:50 slope (2%) for cross slope for any landscape area;
 - (d) All site grading will direct overland drainage along or away from any landscape buffer to collection points on-site away from buildings;
 - (e) All areas in which the existing slope exceeds 30% are to be identified;
 - (f) All areas developed and adjacent lands impacted by development with slopes greater than 30% shall be rehabilitated using indigenous vegetation common to the site.
- 8.2.4. All outdoor storage areas shall have a dust-free surface.
- 8.2.5. All construction on-site must occur concurrently with erosion control measures to prevent the pollution, degradation, or siltation of natural areas and water courses. This includes the provision of temporary fencing prior to and during construction.
- 8.2.6. All required landscape buffer areas shall be watered by a fully automatic irrigation system. No run-off onto sidewalks, streets, or parking areas shall be permitted.

- 8.2.7. Notwithstanding Section 8.2.6, the following areas are exempt from having permanent fully automatic irrigation systems:
- (a) existing areas of undisturbed native vegetation which have been accepted as landscape buffer; and
 - (b) landscape buffers which are established with drought resistant species to return the area to a natural condition.
- 8.2.8. Where the retention of native trees and ground cover is required or permitted, a letter from a registered professional landscape architect or registered professional forester shall be submitted, indicating the mitigation measures required during and after the construction to ensure the health of the vegetation.
- 8.2.9. New trees and shrubs shall follow a consistent lateral placement and be set back a minimum of 1.0 m from all underground utilities.
- 8.2.10. Urban plazas are permitted as a substitute for a front yard or side yard street buffers according to the provisions of Section 8.4 and 8.6.
- 8.2.11. New trees and shrubs planted as part of landscaping requirements shall not be pest host species.

8.3. Refuse and Recycling Bins

- 8.3.1. When any development is proposed, provisions for garbage storage, recycling and collection shall be provided on the same site as the development.
- 8.3.2. All site refuse and recycling bins in zones other than agricultural zones, including all other large receptacles used for the temporary storage of materials, require opaque screening from adjacent lots and streets.
- 8.3.3. All screening will be a minimum of 2.0 m in height to a maximum height that is equivalent to the height of the refuse or recycling bin.
- 8.3.4. All sides open to public view shall be screened by the additional planting of shrub and groundcover material at least 1.5 m in height.
- 8.3.5. Notwithstanding Sub-section 8.3.2, a refuse or recycling bin located within a property and screened from adjoining lots will not require any screening or landscape.
- 8.3.6. All refuse or recycling bins shall be located a minimum of 3.0 m from any abutting residential zone so as to not obstruct pedestrian or vehicle traffic.
- 8.3.7. An unobstructed access lane with a minimum width of 3.0 m and a minimum vertical clearance of 4.6 m shall be provided to provide access to a required garbage and recycling room or enclosure.

8.4. Urban Plazas

- 8.4.1. Urban plazas must be solely for pedestrian use and must be accessible to the public from both the street and from the development. Landscape buffering in urban plaza areas should be designed according to Table 8.1 of this Bylaw.

- 8.4.2. The minimum plaza street frontage is 7.5 m.
- 8.4.3. The minimum plaza depth is 4.0 m.
- 8.4.4. For any plaza in lieu of a landscape buffer, the following are minimum requirements:
 - (a) all hard surface areas shall use a decorative paving surface;
 - (b) a minimum of two benches for public seating shall be provided;
 - (c) a minimum of 3 trees, with a minimum 65 mm caliper and rootball of 900 mm, shall be provided, and;
 - (d) pedestrian and decorative lighting must be provided.

8.5. Fencing and Retaining Walls

- 8.5.1. Screen fences shall be consistent with the quality of building design and materials of the principal building.
- 8.5.2. Screening fences shall be opaque double-sided construction. Where screen fences are allowed or required by this Bylaw, they shall be of an opaque or a combination of opaque and lattice design.
- 8.5.3. No fence constructed at the natural grade in rural residential or residential zones shall exceed 2.0 m in height except where abutting an agricultural or commercial zone, the maximum height is 2.4 m.
- 8.5.4. No fence in a commercial or industrial zone shall exceed 2.4 m.
- 8.5.5. Industrial zones are to have an opaque 2.4 m high fence around all storage yards, along all property lines abutting non-industrial zones and around wrecking yards that are visible from a street abutting the property.
- 8.5.6. No barbed wire fencing shall be allowed in any rural residential, urban residential, or institutional zones except in RR1 and RR2 zones for use in livestock enclosures.
- 8.5.7. No opaque fences are permitted in W1 or W2 zones.
- 8.5.8. Retaining walls on all residential lots, except those required as a condition of subdivision approval, must not exceed a height of 1.5 m measured from grade on the lower side, and must be constructed so that any retaining walls are spaced to provide at least a 1.5 m horizontal separation between them. All horizontal separations between retaining walls must be landscaped.
- 8.5.9. Notwithstanding Section 8.5.8, a retaining wall may be higher than 1.5 m, measured from grade, where the natural grade of the subject property is lower than the abutting property (see Diagram 8.6).
- 8.5.10. In the case of a retaining wall constructed in accordance with Section 8.5.8, the combined height of a fence on top of a retaining wall at the property line or within 1.5 m of the property line shall not exceed 2.0 m, measured from natural grade at the abutting higher property (see Diagram 8.5).

- 8.5.11. Notwithstanding Section 8.5.10, where an affected property remains at natural grade and the subject property constructs a retaining wall and a fence within 1.5 m of the property line (see Diagram 8.5), the maximum height for a fence on the affected property shall be no greater than 1.8 m above the height of the retaining wall or 3.0 m, whichever is less.
- 8.5.12. In the case of a retaining wall constructed in accordance with Section 8.5.10, the maximum height of a fence, or portion of retaining wall extending above the natural grade of the abutting higher property, or combination thereof, shall be 2.0 m, measured from the natural grade of the abutting higher property (see Diagram 8.5).

8.6. Minimum Landscape Buffers

- 8.6.1. Landscape buffers, of a design as shown on the Minimum Landscape Buffer Treatment Drawings (Levels 2 through 5), the front yard, side yards, and rear yard depending upon the zone as indicated by Table 8.1 - Minimum Landscape Buffer Treatment Level Schedule and Diagrams 8.1, 8.2, 8.3 and 8.4, are as follows:
- (a) Level 1: no specific guidelines for the design of the landscape buffer;
 - (b) Level 2: a minimum 3.0 m landscape buffer is required to separate uses from adjacent properties and will consist of a vegetative buffer where no continuous opaque barrier is required;
 - (c) Level 3: a minimum 3.0 m landscape buffer is required to separate uses from adjacent properties and will consist of a vegetative buffer or a continuous opaque barrier;
 - (d) Level 4: a minimum 3.0 m landscape buffer is required to separate uses from adjacent properties and will consist of coniferous tree or shrub species or native vegetation to provide a continuous opaque screen for parking areas; and
 - (e) Level 5 (for lots existing prior to the adoption date of this bylaw): a landscape buffer is required for all land abutting ALR land. The minimum buffer shall be 3.0 m wide and include an opaque barrier located on the ALR side of the buffer. This standard may be replaced or modified as a result of conditions of a decision by the Agricultural Land Commission.
 - (f) Level 5 (for lots created after the adoption date of this bylaw): a landscape buffer is required to separate all uses from properties within the ALR. The minimum buffer shall be 3.0 m wide and consist of coniferous tree or shrub species or native vegetation. An additional 12.0 m setback from the inner edge of the buffer is also required. This standard may be replaced or modified as a result of conditions of a decision by the Agricultural Land Commission.
- 8.6.2. Trees shall be spaced, on average, to the dimensions specified in the approved drawings. Deciduous trees shall have a minimum caliper of 60 mm with a minimum clearstem height of 1.5 m. Conifers shall be a minimum of 2.5 m high. Irrigated No. 2 pot shrubs are to be placed at a maximum spacing of 1.0 m on centre, with 10 cm ground cover at a maximum spacing of 450 mm.
- 8.6.3. Trees or shrubs higher than 60 cm shall not be located in the visual triangle indicated in Diagrams 8.1, 8.2, 8.3 and 8.4 .
- 8.6.4. Where a visual screen is required it may consist of either vegetation or decorative fence or wall. The minimum height of the screen is 1.2 m for Level 3, 1.5 m for Level 4, and 1.8 m for Level 5, at maturity.

- 8.6.5. Notwithstanding paragraph 8.6.1, buffer widths between a building or structure and the property line may be reduced to the width of the required yard if the required yard is narrower than the buffer specified in that section, with the exception of Level 5 buffering.
- 8.6.6. Where a side yard Landscape Buffer Treatment is required and an opaque barrier is included in the Landscape Buffer Treatment Design, the opaque barrier may be located at the property line.
- 8.6.7. Landscape Buffer Treatments for school sites may be amended from the standards indicated in Table 8.1 – Minimum Landscape Buffer Treatment Levels Schedule. Where changes to the standards are proposed, supporting documentation from a registered landscape architect must be provided that confirms that the following objectives have been met:
- (a) That sufficient screening to adjacent residential properties has been achieved;
 - (b) That adequate landscaping has been provided to provide shade for buildings and play areas;
 - (c) Driveway entrances and parking areas have been appropriately landscaped for optimization of screening and vehicular sight lines; and,
 - (d) Landscaping around active play areas ensures safety to children on the school grounds.
- 8.6.8. Where perimeter landscaping cannot be provided due to any of the above noted objectives, the School District will be required to provide or upgrade boulevard trees on all abutting roads.
- 8.6.9. In addition to the minimum landscape buffer treatment levels above:
- (a) all lands adjacent to Highway 97, except those in agricultural zones and within the Town Centre, are required to have Level 4 landscape buffer treatment unless superseded by development permit guidelines;
 - (b) Direct Control zones shall specify the buffer treatment levels for the Direct Control site;
 - (c) all non-accessory surface parking lots in a the Town Centre shall have a level 2 buffer zone;
 - (d) required landscape islands in parking areas shall have the same level of landscaping as a Level 2 buffer zone;
 - (e) recreational vehicle parking compounds in residential zones shall have a Level 5 buffer zone;
 - (f) on corner lots, or lots having more than one street frontage, front yard landscape buffers shall apply to all street frontages; and
 - (g) for development in industrial zones with parking located in front of the building, level 4 buffers shall apply for the front yard, and in the case of a corner lot, for the front yard and the flanking side yard.
- 8.6.10. Notwithstanding Section 8.6.1, all landscape areas should reflect the character and intent of the Official Community Plan.

SECTION 9 -- PARKING AND LOADING

9.1. Off-Street Vehicle Parking

- 9.1.1. Where any development is proposed, including new development, change of use of existing development, or enlargement of existing development, off-street vehicle parking (including parking for the disabled, and visitors) shall be provided by the property owner in accordance with the requirements of this Bylaw.
- 9.1.2. Number of Spaces
- (a) The minimum number of off-street vehicle parking spaces required for each use is specified in the Parking Schedule (Table 9.1) except where additional parking is required by the Ministry of Transportation if the site has direct access to a provincial highway.
 - (b) Where calculation of the total number of parking spaces yields a fractional number, the required number of spaces shall be the next highest whole number.
 - (c) Where more than one calculation of parking space requirements is specified for a land use, the greater requirement shall be applied.
 - (d) Where the Parking Schedule does not clearly define requirements for a particular development, the single use class or combination of use classes most representative of the proposed development shall be used to determine the parking requirements.
 - (e) Where a development consists of a mix of use classes, the total off-street parking requirement shall be the sum of the off-street parking requirements for each use class.
- 9.1.3. Parking Spaces for the Disabled
- (a) shall be designated if the B.C. Building Code deems that disabled access to the development is required;
 - (b) shall be designated as parking space for the disabled using appropriate signage;
 - (c) shall be included in the calculation of the applicable minimum parking requirement;
 - (d) shall be as close as practical to the building entrance; and
 - (e) in the C and P zones, shall comprise 2% of the required parking stalls with a minimum of 1 parking stall for the exclusive use by disabled persons.
- 9.1.4. Parking Spaces for Visitors
- (a) Parking spaces for visitors shall be provided in accordance with the Parking Schedule (Table 9.1) of this Bylaw.
- 9.1.5. Location
- (a) For residential use classes:
 - (i) all required off-street parking shall be located on the site of the development served by the parking;
 - (ii) no off-street parking shall be located in the required front yard except that a maximum of two required spaces may be located on a driveway which provides access to a required off-street parking space that is not in the front yard;
 - (iii) except for developments with 2 or less dwelling units, no off-street parking shall be located within 1.5 m of any side or rear property line or within 3.0 m of any flanking street; and
 - (iv) all visitor parking is to be easily accessible to the access points of the corresponding development and or buildings.

- (b) For non-residential use classes:
 - (i) some or all required off-street parking spaces may be provided on a site located remotely, but no further than 200.0 m (for C1 zones) or 120.0 m (for all other zones) measured along the shortest public pedestrian route from the nearest point of the parking to the nearest point of the site of the development served by the parking;
 - (ii) where required off-street parking is located on a site separate from the site of the development the owner of the remote off-street parking site shall covenant with the District by agreement that the remote lands required for off-street parking shall be so used as long as required by this Bylaw, and the owner shall consent to pay the full cost of the preparation and registration of an agreement under Section 219 of the Land Title Act on the title to the remote lands; and remote parking shall be developed to the same standard as on-site parking;
 - (iii) unless otherwise stipulated, no off-street parking shall be located within 2.0 m of any front property line or any property line abutting a street; and
 - (iv) No off-street parking shall be located within 1.5 m of any side or rear property line abutting residential zones.

9.1.6. Size

- (a) Each required off-street parking space shall conform to the following provisions:
 - (i) Except as provided below, each required off-street parking space shall be a minimum of 2.5 m in width with a minimum clear length of 6.0 m exclusive of access drives or aisles, ramps, or columns. Parking spaces shall have a vertical clearance of at least 2.0 m. For parallel parking, the length of the parking spaces shall be increased to 7.0 m, except that an end space with an open end shall be 5.5 m. For parking spaces other than parallel parking spaces, up to 40% of the required parking spaces may be of a length shorter than that required above, to a minimum of 5.0 m.
 - (ii) Where the use of a parking space is limited on both sides by a wall or a column, the unobstructed width from face to face of the obstructions shall be 3.0 m, and if in this case, a building door opens into the parking space on its long side, the unobstructed width shall be 3.3 m. Where the use of a parking space is limited to one side by a wall or a column, the unobstructed width of the parking space shall be 2.7 m, and if in this case, a building door opens into the parking space on its long side, the unobstructed width shall be 3.0 m.
 - (iii) Disabled parking spaces shall be a minimum 3.7 m in width and minimum 6.0 m in length.
 - (iv) Boat trailer spaces shall be a minimum of 3.0 m in width and a minimum of 12.0 m in length.
 - (v) Aisles shall be 7.0 m wide for all two way aisles and for all 90° parking. One way aisles shall be 5.5 m wide for 60° parking, 3.6 m wide for 45° parking and 3.5 m wide for parallel parking.

9.1.7. Tandem Parking

- (a) Parking spaces may be configured in tandem for single detached housing, semi-detached housing, and duplex housing.
- (b) In housing development containing three or more dwellings, tandem parking may be allowed provided each dwelling has one directly accessible parking space and guest parking is not in tandem.

9.2. Off-Street Loading

- 9.2.1. Where any development is proposed, including new development, change of use of existing development, or enlargement of existing development, off-street loading spaces

shall be provided by the property owner in accordance with the requirements of this Bylaw.

9.2.2. Number of Spaces

- (a) The minimum number of off-street loading spaces, including bus loading spaces, required for each use is specified in the Loading Schedule (Table 9.2).
- (b) Where calculation of the total number of loading spaces yields a fractional number, the required number of spaces shall be the next highest whole number.
- (c) Where more than one calculation of loading space requirements is specified for a land use, the greater requirement shall be applied.
- (d) Where the Loading Schedule does not clearly define requirements for a particular development, the single use class or combination of use classes most representative of the proposed development shall be used to determine the loading space requirement.
- (e) Where a development consists of a mix of use classes, the total off-street loading requirement shall be the sum of the off-street loading requirements for each use class, unless there is a complementary demand or differences in periods of use for loading that warrants a different requirement.

9.2.3. Location

- (a) Off-street loading space shall be provided entirely within the property of the development being served, and shall be subject to all setbacks and yard requirements specified elsewhere in this Bylaw.
- (b) Off-street loading space shall be oriented away from residential development.

9.2.4. Size and Access

- (a) Each off-street loading space shall be of adequate size and accessibility to accommodate the vehicles expected to load and unload, but in no case shall a loading space be less than 28 m² in area, less than 3.0 m in width, or have less than 4.0 m in overhead clearance.
- (b) Each required bus loading space shall be a minimum of 3.6 m in width, a minimum of 12.2 m in length, and have a minimum clearance of 4.6 m.
- (c) Access to any loading area shall be provided, wherever possible, internally to the development or from a lane abutting the development.
- (d) Access to any loading area shall be arranged such that no backing or turning movement of vehicles going to or from the site causes interference with traffic on the abutting streets or lanes.

9.3. Development Standards

9.3.1. Vehicle Parking and Loading

- (a) Every off-street parking or loading area required by this Bylaw to accommodate 3 or more vehicles, and every access road to such required parking or loading, shall have a durable, dust-free hard surface of concrete, asphalt or similar material, constructed such that surface drainage is directed to an approved drainage system or is contained on-site. Any requirement for concrete or asphalt does not apply to agricultural zones, or public parks and open space uses.
- (b) Every off-street parking or loading area required by this Bylaw to accommodate 3 or more vehicles:
 - (i) shall clearly delineate individual parking spaces, loading spaces, spaces for the

- disabled, manoeuvring aisles, entrances, and exits with pavement markings, signs, and or other physical means;
- (ii) shall direct surface drainage to the public storm sewer system, if available, or alternatively to approved planting areas or an approved on-site drainage system; and
 - (iii) shall be constructed with surface grades not exceeding 6%.
- (c) No public street shall be used for the required aisle access to parking spaces. Where a lane is used for aisle access, the parking spaces shall be increased a minimum of 1.2 m in length.
 - (d) Where a parking or loading area is associated with a commercial or industrial use, and the development property abuts property in a rural residential zone, an urban housing zone, an institutional zone, or an abutting road right-of-way, the parking or loading area shall have a landscaped screen as required by Section 8.
 - (e) Every off-street parking or loading area required by this Bylaw to accommodate 50 or more vehicles at-grade shall incorporate landscaped open space within the parking area calculated on the basis of 2.0 m² of landscaped island area per required parking and loading space. This shall be landscaped in accordance with Section 8.
 - (f) Every off-street parking or loading area, and access thereto, shall have fencing, curbs, or secured wheel stops to prevent vehicles from encroaching upon property lines.
 - (g) Every off-street parking or loading area which is illuminated shall have all lighting positioned in such a manner that light falling onto abutting properties is minimized.
 - (h) Disabled parking shall be located as close to a main building entrance, on a level non-skid surface, as practical.
 - (i) Any trash storage or collection area co-existing with any parking or loading area:
 - (i) shall be clearly delineated as separate and in addition to required parking and loading spaces;
 - (ii) shall be located such that collection vehicles can gain access without undue interference with the operation of the parking and loading area; and
 - (iii) shall have a fenced or landscaped screen as required by Section 8.

9.4. Off-Street Bicycle Parking

- 9.4.1. Where any development is proposed, including new development, change of use of existing development, or enlargement of existing development, off-street bicycle parking shall be provided by the property owner in accordance with the requirements of this Bylaw.
- 9.4.2. Number of Spaces
 - (a) The number of Class I and Class II off-street bicycle parking spaces required for each use class is specified in the Bicycle Parking Schedule (Table 9.3).
 - (b) Where calculation of the total number of parking spaces yields a fractional number, the required number of spaces shall be the next highest whole number.
 - (c) Where more than one calculation of parking space requirements is specified for a land use, the greater requirement shall be applied.
 - (d) Where the Bicycle Parking Schedule does not clearly define requirements for a particular development the single use or combination of uses most representative of the proposed development shall be used to determine the parking requirement.
- 9.4.3. Development Standards

- (a) Bicycle parking stalls shall be a minimum of 0.6 m in width and a minimum of 1.8 m in length, shall have a vertical clearance of at least 1.9 m, and shall be situated on a hard surface.
- (b) Aisles between parked bicycles should be a minimum of 1.2 m in width.
- (c) Bicycle racks shall be constructed of theft resistant material, shall be securely anchored to the floor, building, or ground, shall support the bicycle frame above the centre of gravity, and shall enable the bicycle frame and front or rear wheel to be locked with a U-style lock.
- (d) Bicycle racks shall be located in a convenient, well-lit location that is easily located and accessible by visitors and subject to casual surveillance by occupants of the building served by the rack.

9.5. General Provisions

9.5.1. Where provision of off-street parking or loading spaces is required by this Bylaw, a plan of the proposed site layout and landscape plan shall be included with the development permit application or building permit application if no development permit is required. The site plan must be drawn to scale and must clearly illustrate the lot size and configuration, building locations, parking spaces, loading spaces, on-site circulation, access driveways, landscaping, fences, and any other details relevant to the review of the development proposal.

9.5.2. Off-street parking spaces shall not be credited as off-street loading spaces or vice versa.

10.7. Secondary Suites

- 10.7.1. Secondary suites, when permitted, are to be located only in a new or converted single detached house. No structural alterations or additions shall be undertaken that alters the

existing character and form of the neighbourhood.

- 10.7.2. No more than one secondary suite shall be permitted per principal dwelling unit.
- 10.7.3. The maximum floor area of a secondary suite shall not exceed the lesser of 90 m² or 40% of the total floor area of the principal building.
- 10.7.4. Parking and signs shall be in conformance with the regulations of this Bylaw and the District of Lake Country Signage Regulation Bylaw currently in effect.
- 10.7.5. A secondary dwelling unit shall be located in a building and on a property which is a single real estate entity. No strata titling will be permitted.
- 10.7.6. A secondary suite is not permitted in conjunction with lodgers, bed and breakfast accommodation or a group home.

10.8. Accessory Suites

- 10.8.1. Accessory suites, when permitted, are to be located only in an accessory building, except in the RLP and RR1 zones, where a manufactured or mobile home may be considered an accessory suite.
- 10.8.2. No structural alterations or additions shall be undertaken that alters the existing character and form of the neighbourhood.
- 10.8.3. No more than one accessory suite shall be permitted per lot. It may be permitted within an accessory building. It shall not be allowed in conjunction with a bed and breakfast home.
- 10.8.4. No accessory suite will be allowed without connection to a community sanitary sewer unless the lot is at least 1.0 ha and meets the requirements of the District for septic disposal capacity.
- 10.8.5. When the accessory suite is located in an accessory building, the maximum floor area of the accessory suite shall not exceed the lesser of 90 m² or 75% of the total floor area of the principal building.
- 10.8.6. If a manufactured or mobile home is being used as an accessory suite, the maximum floor area of the unit shall not exceed 90m².
- 10.8.7. Parking and signs shall be in conformance with the regulations of this Bylaw and the District of Lake Country Signage Regulation Bylaw currently in effect.
- 10.8.8. An accessory suite shall be located in a building and on a property which is a single real estate entity. No strata titling will be permitted.
- 10.8.9. An accessory suite is not permitted in conjunction with lodgers, bed and breakfast accommodation or a group home.

10.9. Bed and Breakfast Homes

- 10.9.1. Bed and breakfast homes shall comply with the following regulations:

- (a) The bed and breakfast home shall be operated as a secondary use only within the principal building, with a maximum 4 sleeping units with accommodation for a maximum of two guests per sleeping unit, of a minimum area of 11 m² each; and
- (b) Bed and breakfast homes shall not change the principal residential character or external appearance of the dwelling involved.
- (c) The licensed operator of a bed and breakfast home must reside in the dwelling in which the bed and breakfast operation is located.
- (d) One sign is permitted according to the provisions of the District of Lake Country Signage Regulation Bylaw currently in effect.
- (e) Parking areas and open space to be used by guests of a bed and breakfast home shall be oriented away from abutting development to minimize the impact of the operation on neighbouring properties.
- (f) All parking area and open space to be used by guests of a bed and breakfast home are to be visually screened from abutting properties by opaque fencing or landscaping.

10.10. Vehicular Oriented Uses

- 10.10.1. Vehicular-oriented uses shall not adversely affect the functioning of surrounding public roadways or adversely impact on any adjacent residential uses.
- 10.10.2. The minimum site width for a vehicular-oriented use shall be 30.0 m.
- 10.10.3. Site area shall be provided as follows:
 - (a) The minimum site area for any development incorporating a vehicular-oriented use shall be 930 m² and the maximum site coverage shall be 30%.
 - (b) The minimum site area for a service station shall be 1,200 m² and the maximum site coverage, including pump islands, shall not exceed 30%.
 - (c) The minimum site area for a drive-through vehicle service shall be 140 m² of site area not covered by buildings for each service bay.
 - (d) Where two or more of these uses are part of a mixed use development on the same site, the total site area requirements shall be the sum of the requirements of the uses computed separately, unless there is a complementary use of space which would warrant a reduction in site area requirement.
- 10.10.4. Queuing space shall be provided as follows:
 - (a) For drive-through vehicle services, excluding car washes, a minimum of three in-bound and two out-bound queuing spaces shall be provided for each service bay.
 - (b) Each queuing space shall be a minimum of 6.0 m long and 3.0 m wide. Queuing lanes shall provide sufficient space for turning and manoeuvring.
- 10.10.5. Service stations and gas bars shall adhere to the following:
 - (a) All pump islands shall be located at least 6.0 m from any property line or parking area on the site, or laneways intended to control traffic circulation on the site;
 - (b) A canopy over a pump island shall not extend to within 3.0 m of the property line of the site;
 - (c) The canopy area for a service station or gas bar shall not constitute part of the site coverage; and

- (d) Where the canopy is a sign, it must comply with the provisions of the District of Lake Country Signage Regulation Bylaw currently in effect.

10.11. Car Washes

- 10.11.1. Car washing establishments shall provide vehicle storage for a minimum of 5 vehicles per washing bay at the entrance end of the facility, except it is a minimum of 2 vehicles where the washing bay is coin operated and the vehicle is manually washed by an occupant of the vehicle.
- 10.11.2. Storage spaces at the entrance end of the facility shall be a minimum of 6.5 m long and 3.0 m wide.

10.12. Dock and Boatlift Regulations

- 10.12.1. Non-moorage uses such as beach houses, storage sheds, patios, sundecks, and hot tubs shall not be permitted on a dock.
- 10.12.2. The placement of fill, or the dredging of aquatic land, is not permitted. Natural habitat and shoreline processes shall not be altered.
- 10.12.3. Public access along the foreshore shall not be impeded.
- 10.12.4. Moorage facilities consisting of docks shall be permitted if developed consistent with the following regulations:
 - (a) Docks shall not extend a distance greater than 40.0 m from the natural boundary of the upland parcel.
 - (b) Dock walkways shall not exceed a width of 3.0 m.
 - (c) L or T shaped dock structures are permitted if the length of the structure which is parallel to the shoreline does not exceed the lesser of 10 m or one half the width of frontage of the upland parcel.
 - (d) Docks shall not impede pedestrian access along the foreshore. In cases where the dock platform is raised by more than 0.3 m above any point on the public foreshore, steps must be provided for public access over the dock and this access must not be blocked by fences or other means.
 - (e) Setback from the side property line of the upland parcel, projected onto the foreshore, shall be a minimum of 3.0 m.
 - (f) Setback from the side property line of the upland parcel, projected onto the foreshore, shall be a minimum of 6.0 m where the adjacent property is a right-of-way beach access or is in a P1 zone.
 - (g) Siting of the dock shall be undertaken only in a manner that is consistent with the orientation of neighbouring docks, and avoids impacts on access to existing docks and adjacent properties.
 - (h) Dock structures shall be supported by wooden piles and be made of non-toxic materials (solid core docks will not be allowed).
 - (i) No roof or covered structures shall be placed on the dock.
 - (j) In addition to the requirements of paragraph 8.5.7 of this bylaw, no fences will be allowed on docks other than fences running parallel to the foreshore where the intent of such a fence would be to prevent public access onto the dock from the foreshore.

10.12.5. No roof or covered structures shall be used, constructed, or maintained for boat lifts.

10.12.6. Other Regulations

- (a) Additional dock regulations may be applied by the Province of British Columbia or other designated approving agencies.

SECTION 11 -- SIGNS

11.1. Application

- 11.1.1. No person shall construct, place, erect, display, alter, repair or re-locate a sign permitted by this bylaw except in accordance with the District of Lake Country Signage Regulation Bylaw currently in effect.
